## PERFORMANCE FABRIC

Sourced from industry-leading fabric partners, our solar and blackout fabrics are engineered for UV control, energy performance, and room darkening, with select options fully sustainable and recyclable.

Greenguard | Lead-Free | Flame Retardant | Cradle to Cradle | PVC-Free | 100% Recyclable

## WHY SOLARFECTIVE BY ELITE PRO

Every Solarfective shade runs on Permanent Counterbalance Technology; a continuous tension spring drive that holds the same smooth, even feel fully up, fully down, and everywhere between, for the life of the system. Engineered for decades of heavy daily use, with flexible ceiling or wall mounting and installation up to 66% faster than non-cassette shades.

## IDEAL APPLICATIONS

Commercial-grade durability built for high-traffic, high-turnover environments where use can't always be controlled.

**Hospitality & Hotels**
Guest-proof durability with dual light and room-darkening control.

**Institutional, Healthcare & Education**
Built to withstand heavy daily public use.

**Residential & Multi-Family Towers**
Reliable performance across every unit, every floor.

**Commercial Offices**
Consistent solar control across the floor plate.

**25YR** COMMERCIAL WARRANTY

### Backed by a 25-year warranty

**25 YR** All hardware, including brackets & clutches

**15 YR** Up to, on select performance fabrics
